

You have to configure it from wp-admin > Contact > Add/Edit Contact Forms (Contact Form 7 needs to be activated before) to use this plugin.

You will find a new tab, "Sagepay," along with Form, Mail, Messages, Additional Settings from where you can make all settings related to the Sagepay plugin.

Here are some available options to help sole you problems. 2. Support forums 3. Professional services Activate Windows Go to Settings to activate Windows.

Note: You need to add the "Sagepay Country" tag in your form. You will find a tag "Sagepay" along with text, email, URL, etc.

To use the Sagepay option, first, you need to create and save form tags.

You can use the Country field Tag option to display the country in the drop-down if u are going with custom u need to set the drop-down value in ISO 3166 (Examples: GB, IE, and DE), so we prefer to use our tag to display country list.

To add Sagepay payment form to your Contact Form 7, find the setting attributes given below:

01 Enable Sagepay Payment Form

Check the Sagepay Payment Form option for Sagepay submit button activation.

Enable Debug Mode

02

Check the Enable Debug Mode to start transaction debugging.

03
