NOTICE

ZealousWeb Technologies welcomes you. Thank you for showing interest in our site.

ZealousWeb Technologies reserves the right to make modifications, improvements, enhancements, and other alterations to its products & services at any time. In addition to this, it can also discontinue the use of any product or service without prior notification.

ZealousWeb's standard warranty policy warrants the performance of its merchandise in compliance with the specifications applicable at the time of sale. We utilize the testing and other quality control techniques to the extent that ZealousWeb deems necessary to support this warranty. Unless administered by governmental demands, testing of all the parameters of each product will not be necessarily done.

On the contrary, in the absence of a written agreement, ZealousWeb is not liable for the customer's product design or application assistance. For the purchased products and applications, customers are held responsible for using ZealousWeb plugins.

ZealousWeb does not give warranty or guaranty that any license, either conveyed or implied, is granted under ZealousWeb mask work right, patent right, copyright, or other intellectual property rights related to any combination, machine, or process in which ZealousWeb products or services are used.

Information published by our company regarding the third-party products or services does not mean that ZealousWeb provides a license to use such products or services. Brand products and service names are registered trademarks of their respective owners or buyers.

EXTENSION DESCRIPTION

Apple signup extension from Zealousweb helps customers to login/register via Apple account on the store. This extension supports the most secure 2-factor authentication which has benefits to gain customer belief. Users can register/login via the "Sign In With Apple" button which is available on the login and checkout. While clicking on the button, the user will be asked whether they want to link their Apple account to the store. If the user allows, it will then redirect to the appropriate information from the Apple account.

In this way, this extension can help users to signup with their apple id and register into the store.

Features

- Enable/Disable extension from the backend
- Login or create an account with "Sign In With Apple" options from login and checkout page.
- Support the most secure 2-factor authentication.
- Add default values for necessary fields from the configuration.

HOW DOES THIS EXTENSION WORK?

To use this extension, admin has to enable the extension from the store configuration. Once the admin enables the extension, the "Sign In With Apple" button will be visible on the login page as well as "Checkout" page. Admin can add default values of the required fields like (firstname, last name) in the configuration which has been provided in the admin panel. After entering the required information, the user can login or register via an Apple account.

INSTALLATION STEPS

Step1: Check Permission

Make sure the "app" has sufficient write permission to write the files.

Step2: Upload Files

Unzip and upload all content of the extension folder to the root folder of your Magento website using FTP client. On the request whether existing files (folders) should be replaced – select Yes.

Step3: Enable Extension using Component Manager (optional with Step4)

After uploading files, you can enable extension from System > Web Setup Wizard > Module Manager. You can find the extension listed in the grid and click on “Enable” option to start installation process wizard.

Component Name	Module Name	Version	Vendor	Action
● magento/module-weee	Magento_Weee	100.3.2	Magento	Select ▾
● magento/module-weee-graph-ql	Magento_WeeeGraphQL	100.3.2	Magento	Select ▾
▼ magento/module-widget	Magento_Widget	101.1.2	Magento	Select ▾
● magento/module-widget-sample-data	Magento_WidgetSampleData	100.3.4	Magento	Select ▾
▼ magento/module-wishlist	Magento_Wishlist	101.1.2	Magento	Select ▾
● magento/module-wishlist-analytics	Magento_WishlistAnalytics	100.3.2	Magento	Select ▾
● magento/module-wishlist-graph-ql	Magento_WishlistGraphQL	100.3.1	Magento	Select ▾
● magento/module-wishlist-sample-data	Magento_WishlistSampleData	100.3.4	Magento	Select ▾
● magepal/magento2-gmailsmppapp	MagePal_GmailSmpApp	2.8.2	Magepal	Select ▾
▼ msp/recaptcha	MSP_ReCaptcha	2.1.2	Msp	Select ▾
● msp/twofactorauth	MSP_TwoFactorAuth	3.1.1	Msp	Select ▾
● temando/module-shipping-m2	Temando_Shipping	1.5.3	Temando	Select ▾
● vertex/module-tax	Vertex_Tax	3.1.0	Vertex	Select ▾
● zealousweb/applelogin	Zealousweb_AppleLogin	1.0.0	Zealousweb	Select ▾

Step4: Enable Extension using SSH (optional with Step3)

If you have SSH access to your web server then you can setup extension using commands too. Please find commands below:

For windows server:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

For linux server:

```
bin/magento setup:upgrade
```

```
bin/magento setup:static-content:deploy
```

Step5: Refresh Cache

You can refresh cache from **System > Cache Management** from admin section. If you have SSH access of web server then you can refresh magento cache by following command:

For windows server:

```
php bin/magento cache:clean
```

For linux server:

```
bin/magento cache:clean
```

Note:* **After all above steps please logout and login again in the admin section.**

In case you face any problems while installing, feel free to Contact Us at magento@zealousweb.com

HOW TO USE

To access Apple Signup extension configuration, log in to admin panel and go to Store > Configuration > Zealousweb Extension > Apple Signup. After changing configuration, to reflect changes do not forget to flush/refresh cache from System > Cache Management menu.

Note: Need to add all necessary information into the general configuration section.

The screenshot displays the configuration interface for the Apple Signup extension in a Magento 2 admin panel. The interface is split into two main sections: 'General Setting' and 'Default Setting'.

General Setting:

- Enable:** A dropdown menu set to 'Yes'. Below it is a link: 'See how to configure app here.'
- Client Id:** A text input field containing 'net.siteproof.www'.
- Key Id:** A text input field containing '965579M4A2'.
- Issuer Id:** A text input field containing '2B38LY5NSL'.
- Auth key file(*.p8 file):** A file selection area with a 'Choose file' button, 'No file chosen' text, and a 'Delete File' button. The selected file path is 'default/AuthKey_965579M4A2.p8'.
- Valid OAuth redirect URIs:** A text input field containing 'http://siteproofs.net/magento2/extensions/demo/applelogin/apple/callback/'.

Default Setting:

- Firstname:** A text input field with a note: 'This will be used when customer apple account does not return firstname and firstname is required from backend.'
- Lastname:** A text input field with a note: 'This will be used when customer apple account does not return lastname and lastname is required from backend.'
- Gender:** A dropdown menu with a note: 'This will be used when customer apple account does not return gender and gender is required from backend.'
- Prefix:** A text input field with a note: 'This will be used when customer apple account does not return prefix and prefix is required from backend.'
- Suffix:** A text input field with a note: 'This will be used when customer apple account does not return suffix and suffix is required from backend.'
- Date of Birth:** A date picker field with a note: 'This will be used when customer apple account does not return date of birth and it is required from backend.'
- Tax/VAT Number:** A text input field with a note: 'This will be used when customer apple account does not return Tax/VAT and Tax/VAT is required from backend.'
- Other required custom attributes:** A large text area with a note: 'add comma separated attribute like attribute_code*value,attribute_code2*value'.

On the login or checkout page customer choose "Sign In With Apple" options.

After completion of "Two Factor Authentication" asking to share profile info.

The image shows a web application interface for customer login. At the top, there is a navigation bar with links for "What's New", "Women", "Men", "Gear", and "Training". The main heading is "Customer Login". Below this, there is a section for "Registered Customers" with the instruction "If you have an account, sign in with your email address." The form includes fields for "Email" and "Password", both marked as required. A checkbox for "I have read all the terms and conditions" is present. A "Sign In" button and a "Forgot Your Password?" link are provided. A red asterisk indicates required fields. A yellow box offers "Try Demo Customer Access" with email "roni_cost@example.com" and password "roni_cost3@example.com". Below the form, there is an "OR" separator and a "Sign in with Apple" button. Overlaid on the right is a "Sign In with Apple" dialog box from Google Chrome. The dialog asks for authorization to use the Apple ID "info@iphoneapplicationdeveloperindia.com" and provides "Cancel" and "Continue" options. The dialog footer contains "Copyright © 2020 Apple Inc. All rights reserved." and a "Privacy Policy" link.

Once you confirm share profile information you will be redirected on my account page with successful login.

The screenshot displays the 'My Account' page for a user named 'Apple User'. The page is divided into several sections:

- Header:** Includes the LUMA logo, a search bar with the text 'Search entire store here...', and a shopping cart icon. A navigation bar below the header contains links for 'What's New', 'Women', 'Men', 'Gear', and 'Training'.
- Left Sidebar:** A vertical menu with the following items: 'My Account' (highlighted), 'My Orders', 'My Downloadable Products', 'My Wish List', 'Address Book', 'Account Information', 'Stored Payment Methods', 'Billing Agreements', 'My Product Reviews', and 'Newsletter Subscriptions'. Below the sidebar are links for 'Compare Products' and a message: 'You have no items to compare.'
- Main Content Area:**
 - My Account:** The main heading for the page.
 - Account Information:** A section header.
 - Contact Information:** Displays 'Apple User' and the email '68hh5yajfr@privaterelay.appleid.com'. It includes links for 'Edit' and 'Change Password'.
 - Newsletters:** States 'You aren't subscribed to our newsletter.' with an 'Edit' link.
 - Address Book:** Includes a link to 'Manage Addresses'.
 - Default Billing Address:** States 'You have not set a default billing address.' with an 'Edit Address' link.
 - Default Shipping Address:** States 'You have not set a default shipping address.' with an 'Edit Address' link.
