EXTENSION DESCRIPTION

Call For Price extension from Zealousweb helps store owners and customers to pricing consensus. This extension is useful for specific purposes that push buyers to contact the store to get the price. This extension helps store owners to hide the product price and “Add to Cart” by replacing it with a “Call For Price” button to encourage customers to contact the store owner for more information.

Features

- Enable/Disable extension from the backend
- Show call for price as a button or link based on chosen options from configuration.
- Show the advanced reporting on the dashboard in admin.
- Choose the form field which you want to get information from the buyers.
- Store owners add success or failure messages which they want to show while buyers request for the price.
- Admin can notify by an email while buyers make requests for price based on chosen configuration.
- Create a privacy policy url to add in request form.
- Use auto reply and email templates.
- Well compatible with google reCaptcha.

HOW DOES THIS EXTENSION WORK?

■

To use this extension, The admin has to enable the extension from the store configuration. Once the admin enables the extension, the admin can choose for which product they want to hide the price and “Add to Cart” button. The admin can create rules to show the “Call For Price” button or link for the products. Also, admin can show a “Call For Price” button based on the selected scope like (Globally, Category Specific or Product Specific).

INSTALLATION STEPS

■

Step1: Check Permission

Make sure the "app" has sufficient write permission to write the files.

Step2: Upload Files

Unzip and upload all content of the extension folder to the root folder of your Magento website using FTP client. On the request whether existing files (folders) should be replaced – select Yes.

Step4: Enable Extension using SSH (optional with Step3)

If you have SSH access of you web server then you can setup extension using commands too. Please find commands below:

For windows server:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

For linux server:

```
bin/magento setup:upgrade  
bin/magento setup:static-content:deploy
```

Step5: Refresh Cache

You can refresh cache from **System > Cache Management** from admin section. If you have SSH access of web server then you can refresh magento cache by following command:

For windows server:

```
php bin/magento cache:clean
```

For linux server:

```
bin/magento cache:clean
```

In case you face any problems while installing, feel free to Contact Us at magento@zealousweb.com

HOW TO USE
