

# How To Use

You have to configure it from wp-admin > Contact > Add/Edit Contact Forms (Contact Form 7 needs to be activated before).

Like other tabs of Contact Form 7, you will find a new tab “PayPal Plugin Pro” using this you can submit your form and redirect to PayPal and make payment.

The screenshot shows the WordPress admin dashboard with the 'Contact' menu item selected. The 'PayPal Addon Pro' configuration page is open, displaying various settings for a contact form titled 'Paypal Demo form'. The settings include:

- Use PayPal Payment Form:** Checked.
- Enable Test API Mode:** Checked.
- Enable Debug Mode:** Checked.
- Sandbox PayPal Client ID (required):** Aa71C1ix\_ohYDFaUDoE\_HohoLTn3ymideQ7fCyN8DwhlmwYfrrN8wdo485Fr\_45HQpE4R98DGNn7zRXN
- Sandbox PayPal Client Secret (required):** EH0Npxdp2HEXzctIIDKU7whK6Rg6RPD4qLYuyaydk8tK0oXCvVspjL0XnsleclAb2dfSBAblDCQqaNI
- Live PayPal Client ID (required):** (Empty field)
- Live PayPal Client Secret (required):** (Empty field)
- Amount Field Name (required):** amt
- Quantity Field Name (Optional):** Select Field Name
- Description Field Name (Optional):** Select Field Name
- Select Currency:** Canadian Dollar
- Success Return URL (Optional):** Select page
- Cancel Return URL (Optional):** Select page

At the bottom, there is a section for help: 'Do you need help for configuration?' with links to 'Refer the document', 'Contact Us', and 'Email us'.

## 01 Use the PayPal Payment Form

Check the PayPal Payment Form for PayPal submit button activation.

## 02 Enable Test API Mode

Check the Enable Test API Mode to enable Sandbox for test mode.

## 03 Enable Debug Mode

Check the Enable Debug Mode to start transaction debugging.

## 04 Sandbox PayPal Client Id (required)

This field is required when you have set PayPal mode to sandbox if your site is in test mode.

#### 05 **Sandbox PayPal Client Secret (required)**

This field is required when you have set PayPal mode to sandbox if your site is in test mode. Enter the merchant's Secret key of your PayPal account.

Get your API test credentials:

The PayPal Developer site also assigns each sandbox Business account a set of test API credentials. Log in to the PayPal Developer site and navigate to the [Sandbox Accounts](#) page or Dashboard > Sandbox > Accounts. View your test API credentials by clicking the expand icon next to the business account you want to use in your request. Then, navigate to the Profile > API credentials tab of the sandbox account.

#### 06 **Live PayPal Client Id (required)**

This field is required when you have set PayPal mode to live if your site is in live mode.

#### 07 **Live PayPal Client Secret (required)**

This field is required when you have set PayPal mode to live if your site is in live mode.

Get your REST API credentials:

You can view and manage the REST API sandbox and live credentials on the PayPal Developer site [My Apps & Credentials](#) page. Within the setting for each of your apps, use Live toggle in the top right corner of the app settings page to view the API credentials and default PayPal account for each of these environments. If you have not created an app, navigate to the [My Apps & Credentials](#) page.

#### 08 **Amount Field Name (required)**

You have to set a name attribute to any of your fields of Contact Form 7 like drop-down menu, textbox, hidden field, radio buttons, etc., from which you need to pass an amount value to the PayPal website.

For example, [hidden price "20"] This is a hidden field with the name "price". You will need to set "price" in this Amount Field Name of PayPal tab.

#### 09 **Quantity Field Name (optional)**

You have to set a name attribute to any of your fields of Contact Form 7 like drop-down menu, textbox, hidden field, radio buttons, etc. from which you need to pass the quantity of the item to the PayPal website.

For example, [radio quantity "1" "2" "3"] This is a radio button field with the name "quantity". You will need to set "quantity" in this Quantity Field Name of PayPal tab.

#### 10 **Description Field Name (optional)**

You have to set a name attribute to the text field of Contact Form 7 from which you need to pass the description of the item to the PayPal website.

## 11 Select Currency

You can select your currency here. Default is set as AUD (Australian Dollar).

## 12 Success Return URL (optional)

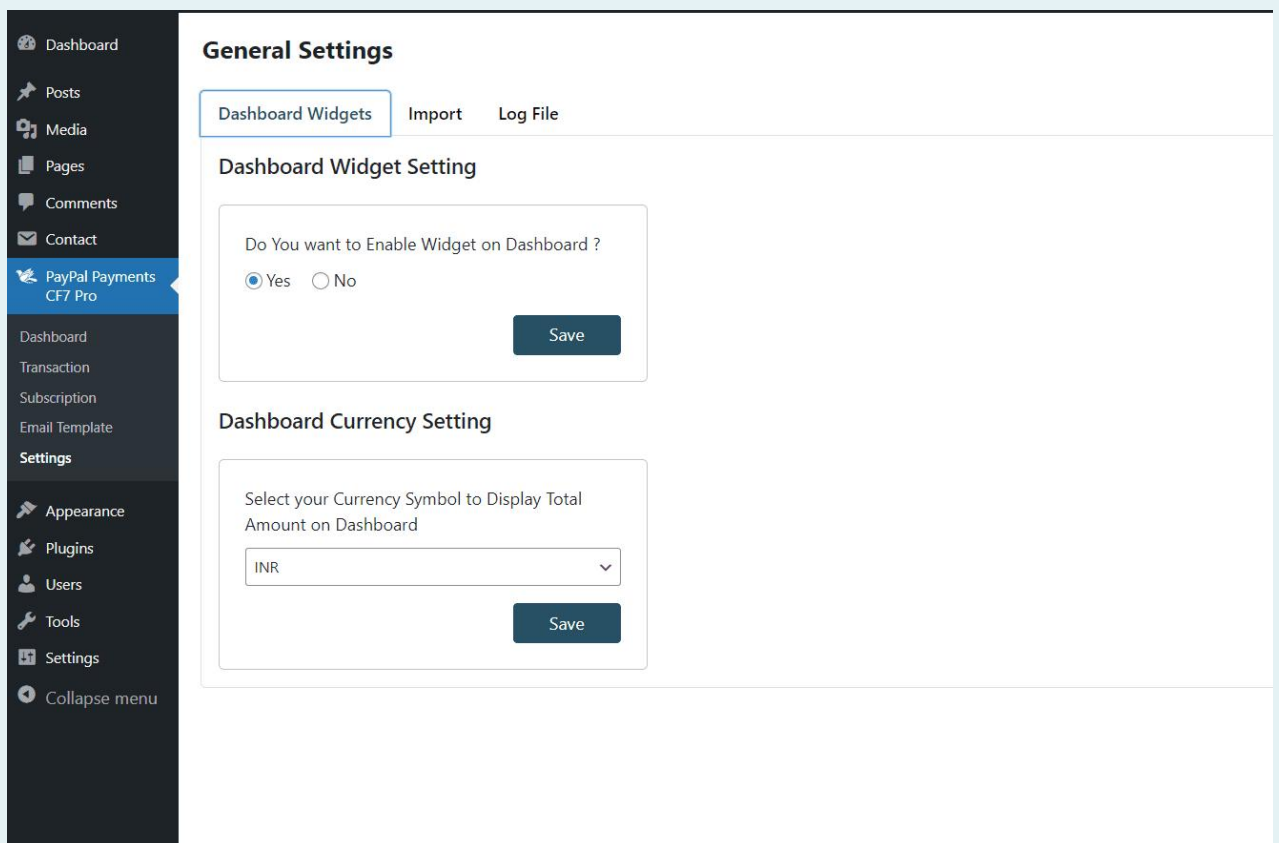

You can enter the URL of the page to redirect for a Successful PayPal Payment transaction.

## 13 Cancel Return URL (optional)

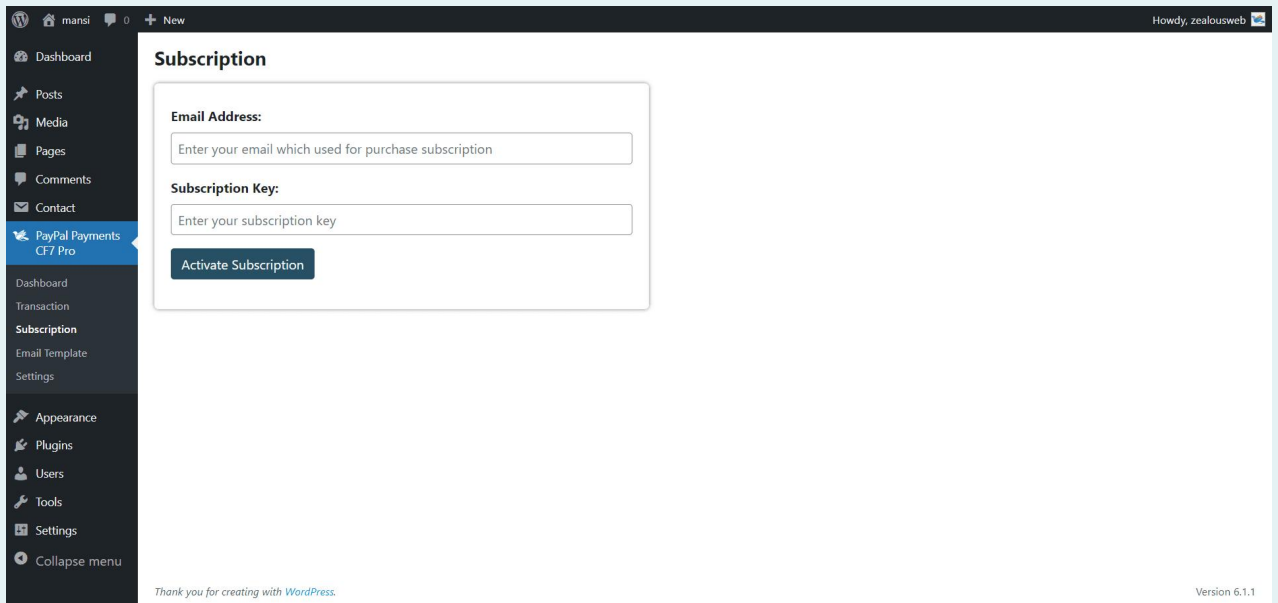

You can enter the URL of the page to redirect if a transaction fails.

## 14 Paypal General Setting

Plugin with separate menu as “PayPal Payments CF7 Pro”

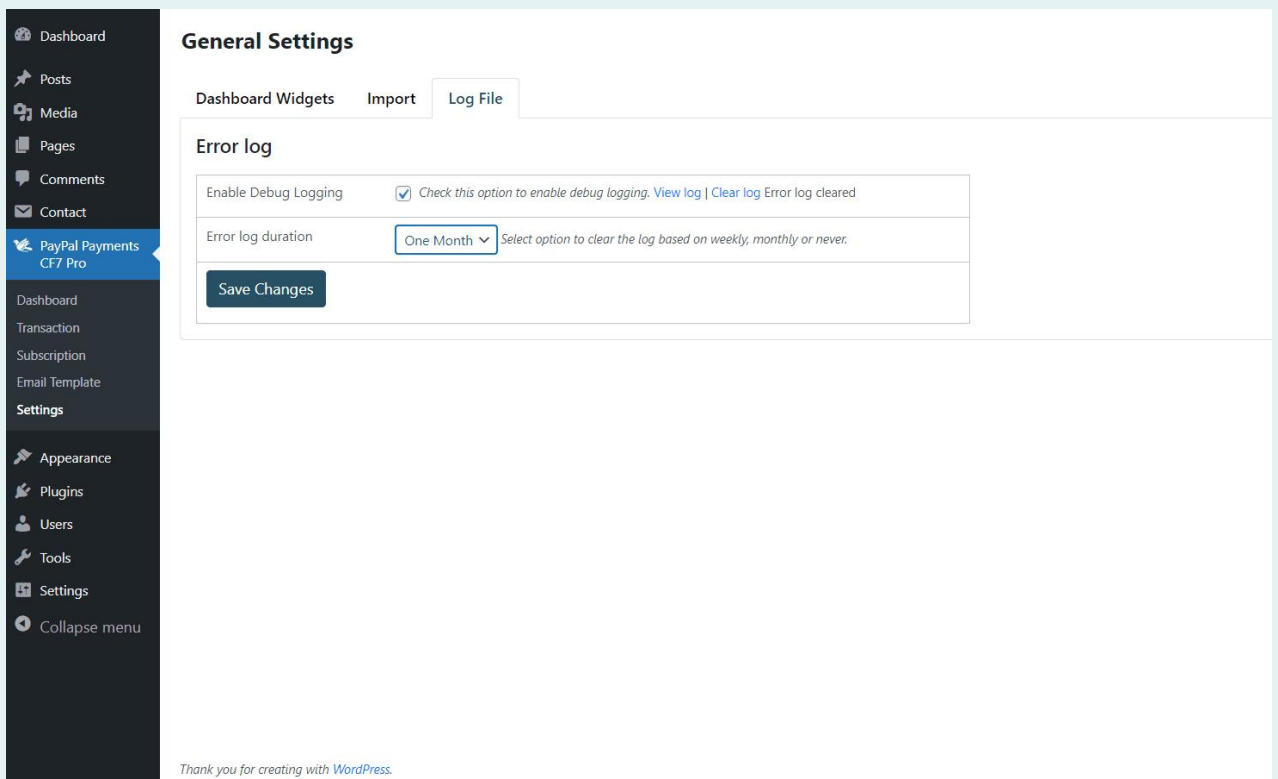

The screenshot shows the WordPress dashboard with the 'PayPal Payments CF7 Pro' menu item highlighted in the left sidebar. The main content area displays the 'General Settings' page for the plugin. At the top, there are tabs for 'Dashboard Widgets', 'Import', and 'Log File'. Below the tabs, the 'Dashboard Widget Setting' section contains a question: 'Do You want to Enable Widget on Dashboard?' with radio buttons for 'Yes' (selected) and 'No', and a 'Save' button. The 'Dashboard Currency Setting' section contains the instruction 'Select your Currency Symbol to Display Total Amount on Dashboard' and a dropdown menu currently showing 'INR', with a 'Save' button below it.

The screenshot shows the WordPress dashboard with the 'Subscription' settings page open. The left sidebar contains a menu with items like Dashboard, Posts, Media, Pages, Comments, Contact, PayPal Payments CF7 Pro, and various settings. The main content area is titled 'Subscription' and contains two input fields: 'Email Address' with the placeholder 'Enter your email which used for purchase subscription' and 'Subscription Key' with the placeholder 'Enter your subscription key'. Below these fields is a blue 'Activate Subscription' button. The footer of the page includes the text 'Thank you for creating with WordPress.' and 'Version 6.1.1'.

Debug Log functionality to check if any developer payments or processes if blocked

The screenshot shows the WordPress dashboard with the 'General Settings' page open, specifically the 'Log File' tab. The left sidebar is the same as in the previous screenshot. The main content area is titled 'General Settings' and has three tabs: 'Dashboard Widgets', 'Import', and 'Log File'. The 'Log File' tab is active and shows the 'Error log' section. It contains two settings: 'Enable Debug Logging' with a checked checkbox and a note 'Check this option to enable debug logging. View log | Clear log Error log cleared', and 'Error log duration' with a dropdown menu set to 'One Month' and a note 'Select option to clear the log based on weekly, monthly or never.' Below these settings is a blue 'Save Changes' button. The footer of the page includes the text 'Thank you for creating with WordPress.'

Do you need help for configuration?

1. [Refer the document](#).
2. [Support](#)
3. [Email us](#)

You need to add the “Paypal Recurring” tag to your form. You will find a tag “Paypal Recurring”

Form 📘

You can edit the form template here. For details, see [Editing form template](#).

Paypal Recurring text email URL tel number date text area drop-down menu checkboxes radio buttons acceptance quiz file submit

```
<label> Your name
[text* your-name autocomplete:name] </label>

<label> Your email
[email* your-email autocomplete:email] </label>

<label> Subject
[text* your-subject] </label>

<label> Amount
[number number-207] </label>

<label> Quantity
[number number-208]</label>

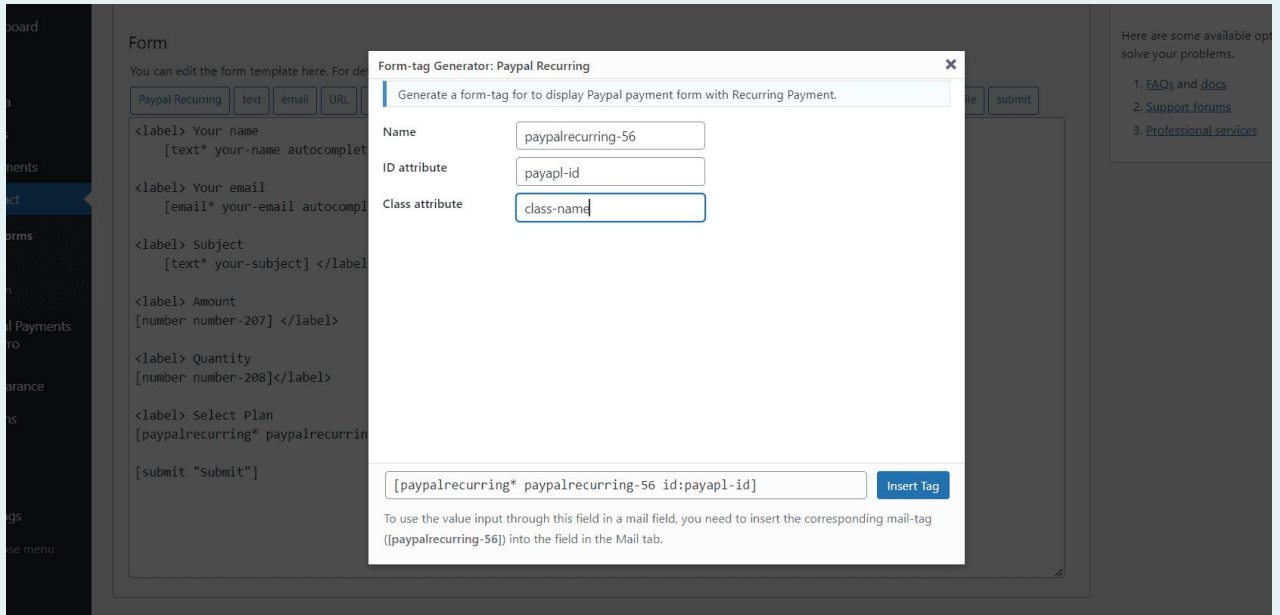

<label> Select Plan
[paypalrecurring* paypalrecurring-367] </label>

[submit "Submit"]
```

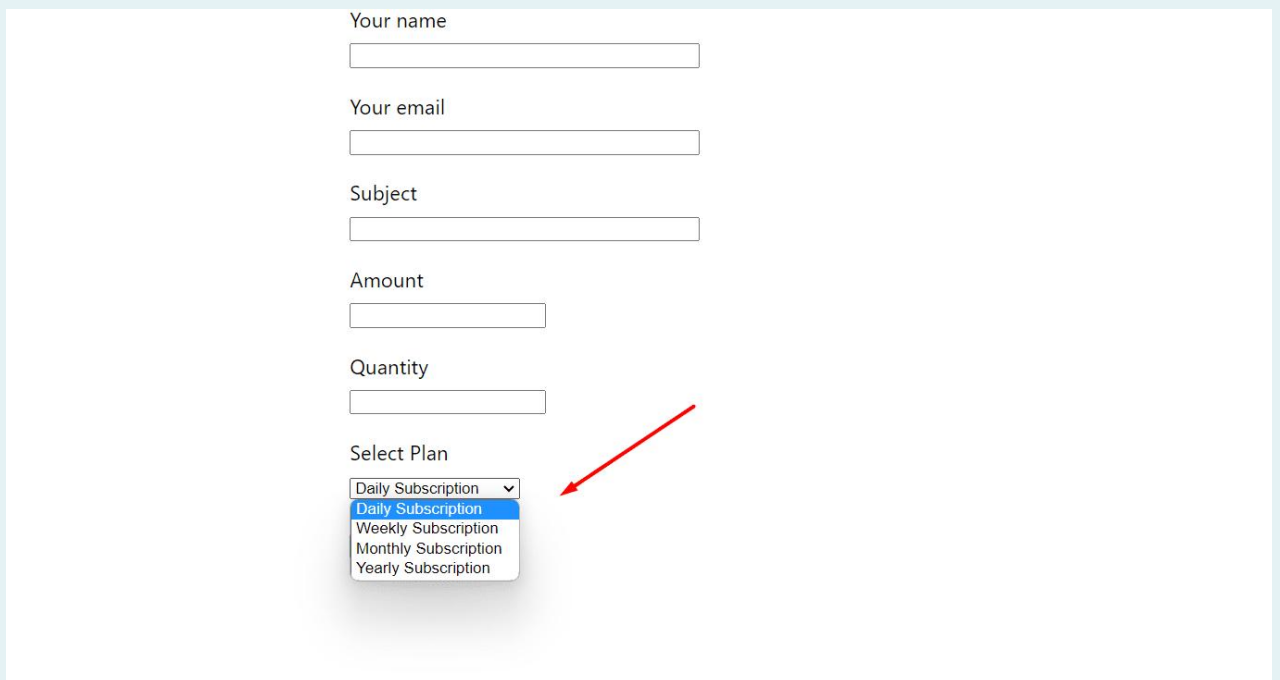

Here are some available options to help solve your problems.

1. [FAQs and docs](#)
2. [Support forums](#)
3. [Professional services](#)

You can modify the tag generator code to add the ID attribute and class attribute to your Contact Form 7 form using the “Paypal Recurring” tag. Here’s an Example:

The front side shows the plan dropdown and the amount of recurring.

Admin side list has an option for canceling the subscription.

The screenshot shows the WordPress admin dashboard with the 'PayPal Payments CF7 Pro' plugin settings. The 'Transaction response' field is expanded to show a JSON object. A red arrow points to a 'Cancel Recurring' button in the 'Recurring Payment' section.
