You can upgrade or downgrade your Flow Form App plan from the 'My Account' section after logging into the store.

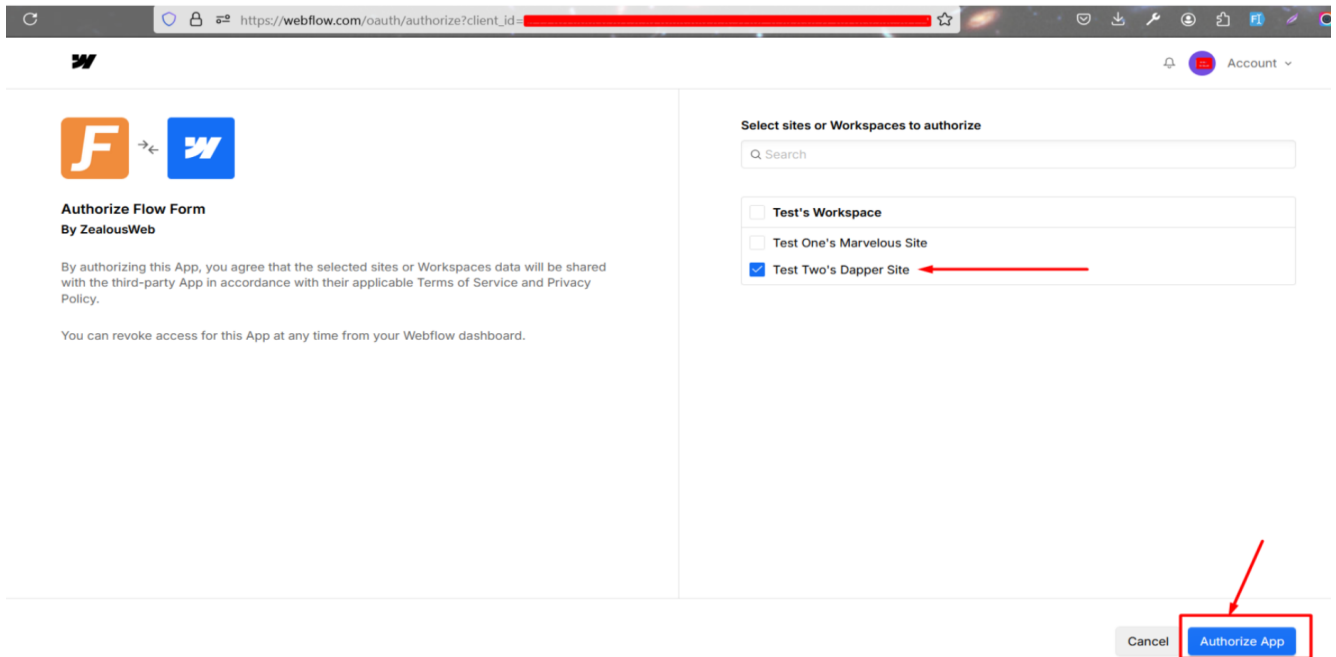

INSTALL APP

Activate support subscription to access support service

Covers all products in your account

30 days free support subscription

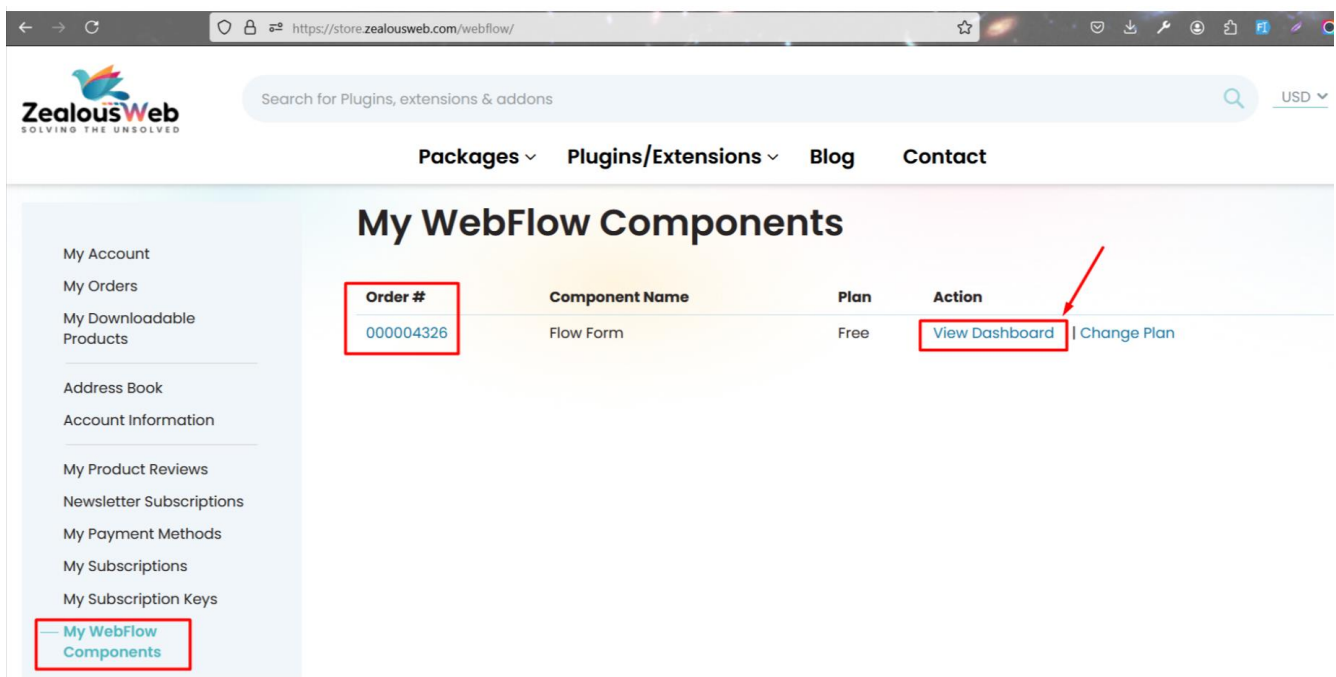

2. You will be directed to the "Webflow authorization" page via the API2 installation [link](#)
3. After logging in, you will be prompted to select a Workspace and the specific sites where you wish to **install the app**.

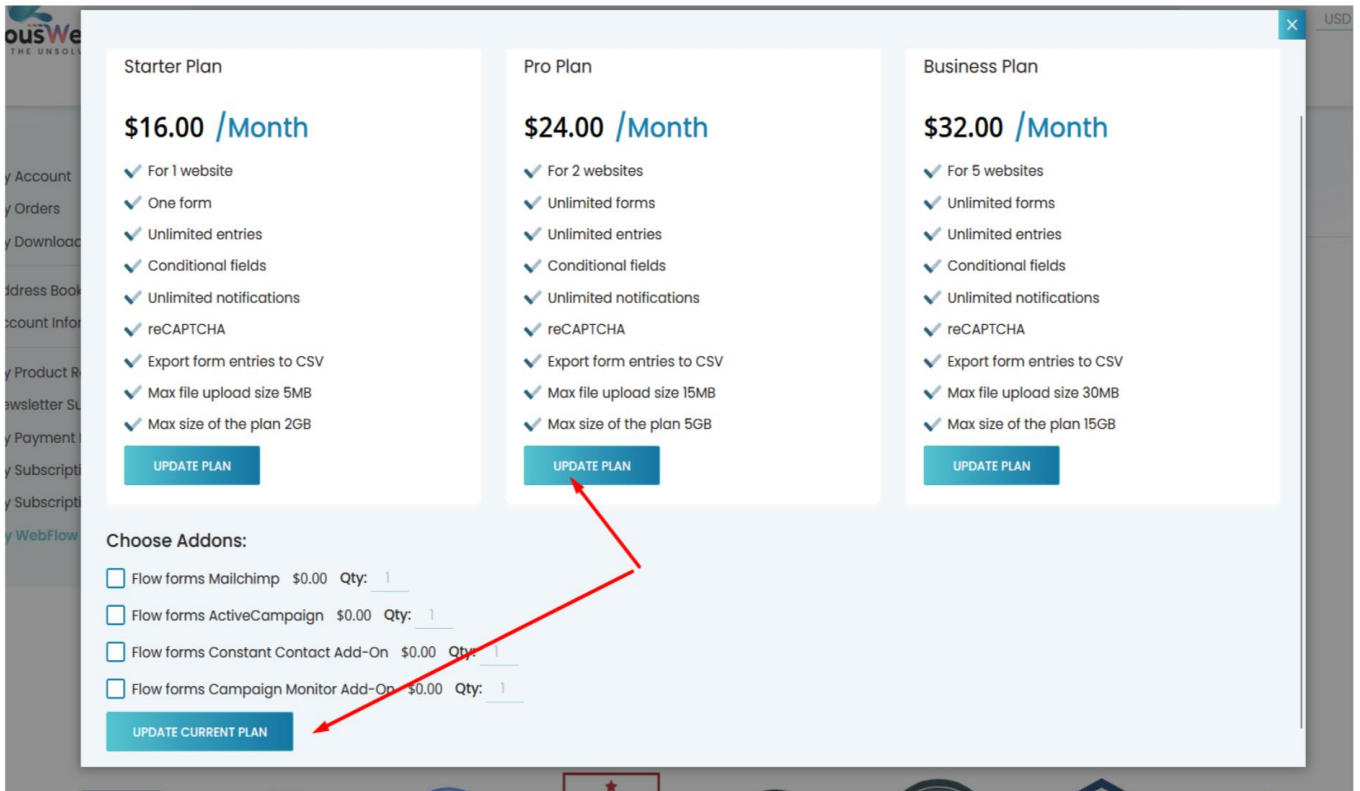

- Once the installation is complete, you will be redirected to our store on your account page with log in. You will receive an email with your store **My account details**, confirming your purchase of the Flow Form and generating an order on our store.
- In the "My Account" section, clicking "**View Dashboard**" will prompt you to provide your Webflow URL:

For the Free plan, enter your Webflow.io URL.

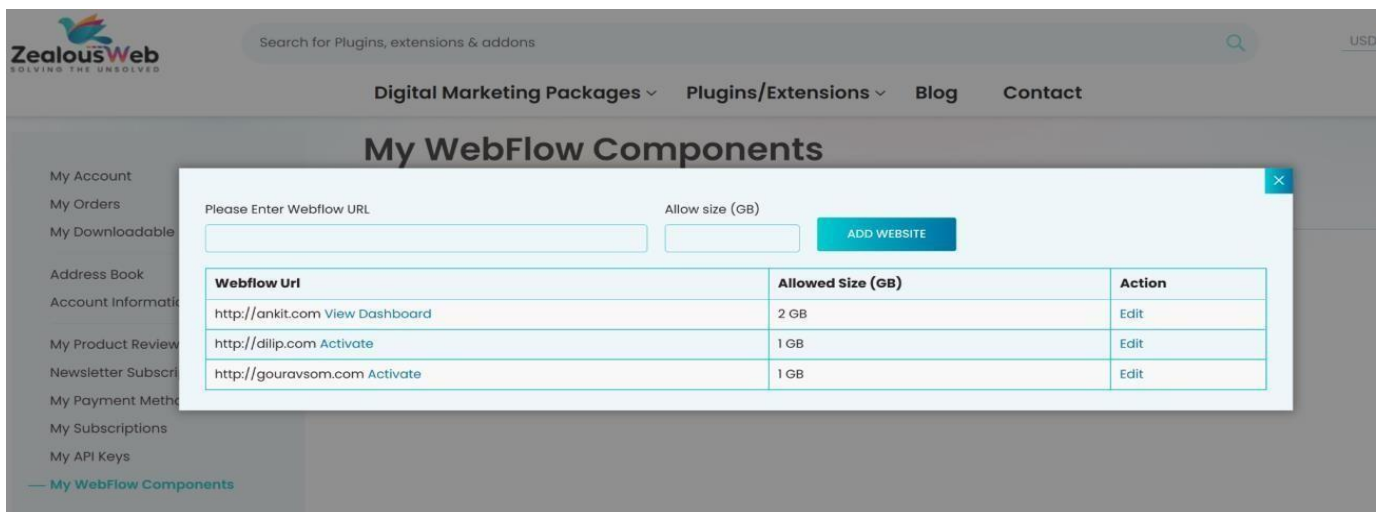

For the Paid plan, you may add your custom Webflow site URL.

- Once the URL is provided, you will receive an email with the credentials for your Flow Form account dashboard specific to that site. (If multiple sites are added, each will have its own Flow Form dashboard, and new login credentials will be emailed for each.)
- Should you wish to upgrade your plan later, this can be done directly from your store account.

- On Webflow Component - You can find option to add Site of Webflow

9. Based on your Plan you can add Your webflow Site URL in that Popup

Webflow Url	Allowed Size (GB)	Action
http://ankit.com View Dashboard	2 GB	Edit
http://dilip.com Activate	1 GB	Edit
http://gouravsom.com Activate	1 GB	Edit

10. With each site you will find the Edit option from where you can change your Website used GB and URL based on purchased plan restriction.

Webflow Url	Allowed Size (GB)	Action
http://ankit.com	2	Cancel Save

11. You can change the plan on click on change plan link and open the popup with showing the all the plan

Flow Form Dashboard

1. From the dashboard, you can create forms, adjust settings, and obtain the iframe code to embed on your Webflow site.

Lost Password

1. First click on the "Lost your password?" button to begin setting a new password.

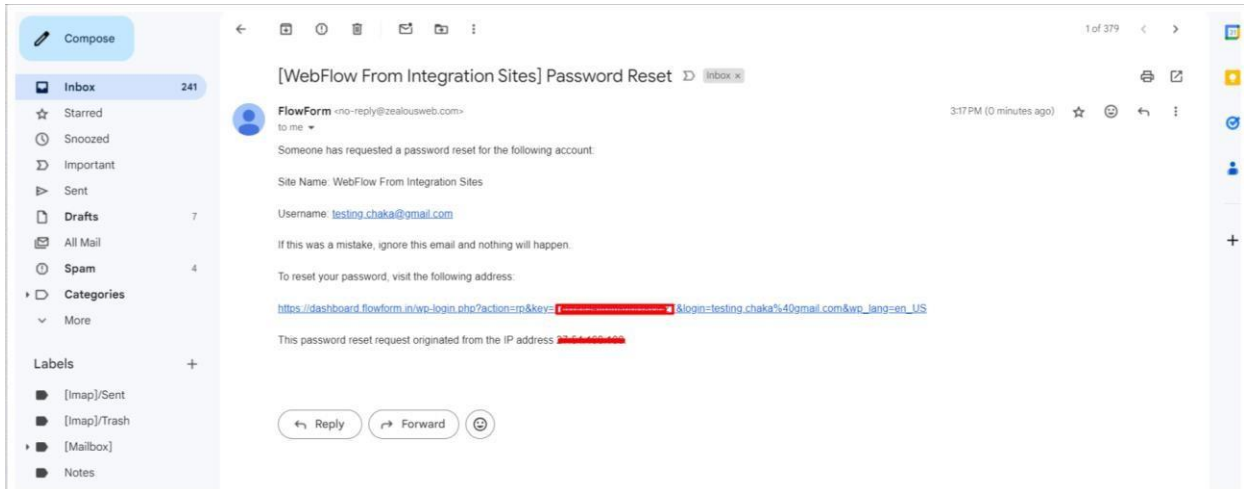

The image shows the FlowForm login page. At the top center is the FlowForm logo. Below it is a light gray rounded rectangle containing a login form. The form has two input fields: "Username or Email Address" and "Password". Below the password field is a "Remember Me" checkbox. To the right of the form is a blue "Log In" button. Below the login form, a red arrow points to a blue button labeled "Lost Your Password?". This button is enclosed in a red rectangular box.

2. Enter your registered email address to receive a verification link for setting a new password.

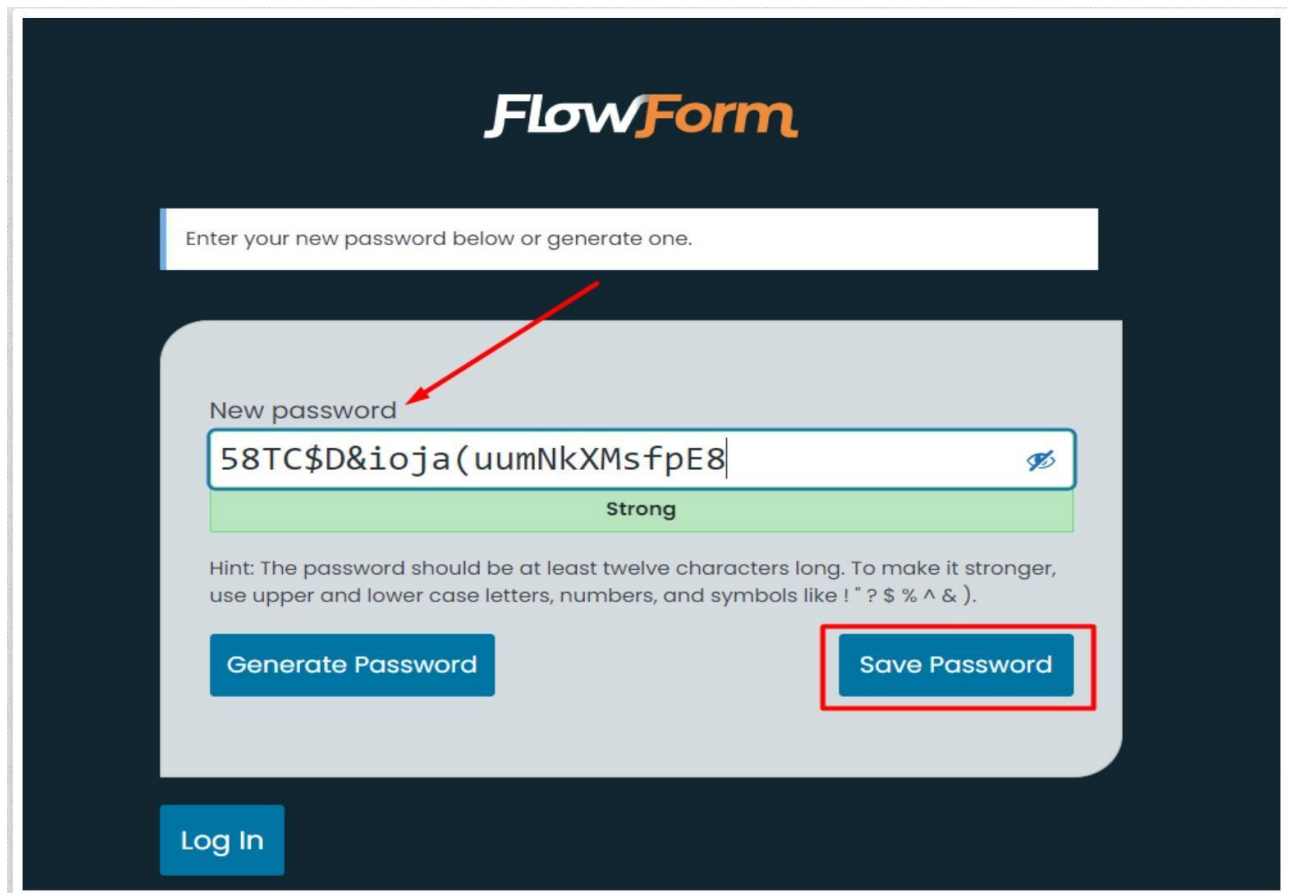

The image shows the FlowForm password reset page. At the top center is the FlowForm logo. Below it is a white message box with the text: "Please enter your username or email address. You will receive an email message with instructions on how to reset your password." Below the message box is a light gray rounded rectangle containing a form. The form has one input field labeled "Username or Email Address". A red arrow points to this input field. To the right of the input field is a blue button labeled "Get New Password". This button is enclosed in a red rectangular box. At the bottom left of the page is a blue "Log In" button.

3. Check your mailbox for the verification link. Once you receive it, click on the link to proceed.

4. After clicking on the verification link, you'll be able to set a new password.

Once your password is successfully updated, log in again using your email and new password.
