NOTICE

ZealousWeb Technologies welcomes you. Thank you for showing interest in our site.

ZealousWeb Technologies reserves the right to make modifications, improvements, enhancements, and other alterations to its products & services at any time. In addition to this, it can also discontinue the use of any product or service without prior notification.

ZealousWeb's standard warranty policy warrants the performance of its merchandise in compliance with the specifications applicable at the time of sale. We utilize the testing and other quality control techniques to the extent that ZealousWeb deems necessary to support this warranty. Unless administered by governmental demands, testing of all the parameters of each product will not be necessarily done.

On the contrary, in the absence of a written agreement, ZealousWeb is not liable for the customer's product design or application assistance. For the purchased products and applications, customers are held responsible for using ZealousWeb plugins.

ZealousWeb does not give warranty or guarantee that any license, either conveyed or implied, is granted under ZealousWeb mask work right, patent right, copyright, or other intellectual property rights related to any combination, machine, or process in which ZealousWeb products or services are used.

Information published by our company regarding the third-party products or services does not mean that ZealousWeb provides a license to use such products or services. Brand products and service names are registered trademarks of their respective owners or buyers.

EXTENSION DESCRIPTION

Quick order extension for Magento 2 allows customers to quickly order the product without finding them from the search bar or from category pages. You can simply add sku & qty and add products to cart in bulk. Apart from this, customers can upload the csv file with a list of products for the bulk order. Also, customers can save the list of products in order to order them next time.

Features

- Admin can enable/disable the functionality
- Autosuggestion on SKU/Name when searching for products
- Allow multiple sku to add to cart directly
- View all details of the products being ordered
- Option to select on product select for group/bundle/configurable products
- Option to add multiple products to cart at one time using CSV file
- Option to checkout directly from page
- Option to download a list of products.
- Option to add products from wishlist, last ordered items and recently viewed products
- Option to save a list of products for login customers.
- Smaller version on sidebar for add to cart options

HOW DOES THIS EXTENSION WORK?

To use this extension, The admin has to enable the extension from the store configuration. Once the admin enables the extension, the admin can see Three Informative dashboards which is Sales Dashboard, Customer Dashboard and Product Dashboard with data and graphs reports. Admin can set notification email sender name and email address. Admin can create N number of custom reports based on Magento condition serialized.

INSTALLATION STEPS

Step1: Check Permission

Make sure the "app" has sufficient write permission to write the files.

Step2: Upload Files

Unzip and upload all content of the extension folder to the root folder of your Magento website using FTP client. On the request whether existing files (folders) should be replaced – select Yes.

Step3: Enable Extension using SSH

If you have SSH access of your web server then you can setup extension using commands too. Please find commands below:

For windows server:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

For linux server:

```
bin/magento setup:upgrade
```

```
bin/magento setup:static-content:deploy
```

Step5: Refresh Cache

You can refresh cache from **System > Cache Management** from admin section. If you have SSH access of web server then you can refresh magento cache by following command:

For windows server:

```
php bin/magento cache:clean
```

For linux server:

```
bin/magento cache:clean
```

In case you face any problems while installing, feel free to Contact Us at magento@zealousweb.com

HOW TO USE

To use this extension, the admin needs to configure the extension from the admin panel. Admin can choose the various options for the quick order form. I.e. allow export for the list, save list, show extra product information etc.

Once the admin will configure the extension. The quick order link will be displayed on the front end on the top bar. Users can add multiple products and save products to their wishlist too.
