Update		

To display booking calendar on frontend, Use the form shortcode on the required page

Generate Appointment and Booking Forms Add New	
All (2) Published (2)	
Bulk actions Apply All dates Status All Forms Filter Filter 	
C Title	Shortcode
Calender Form	[booking_form form_id='58']
Sample Calender	[booking_form form_id='57']
C Title	Shortcode
Bulk actions V Apply	

You can send manual notifications as well. User Receives mail notification where he can cancel the appointment, You need to set shortcodes as per your requirement in notification template. And admin wil receive notification on cancelling appointment.
